

VA GALVESTON

La Central y South American Telegraph Co., por sus cables duplicados en el Océano Pacífico, funcionando duplex con Relys Humano, tiene su Oficina Central en Buenos Aires, con cables directos con Estados Unidos, Chile, Perú, América y diez y seis cables transatlánticos a Europa y demás partes del mundo.

Por estas razones la "Va Galveston" es la vía más segura y la más rápida para las comunicaciones con mayor rapidez y corrección.

Se nega a todas las personas que hagan uso del telégrafo, la línea de cables directos en comunicación con Buenos Aires, y a las personas que no sean de la Va Galveston, en una parte visible de los cables.

Se nega igualmente que en todas las comunicaciones se escriba la palabra "Va Galveston", en una parte visible de los cables.
